Legend - Graphic implementation

- ① Paper graphics with polycarbonate cover of 0.5mm width
- ② Vinyl on polycarbonate cover of 0.5mm width
- ③ Paper graphics with polycarbonate cover of 1mm width
- ④ Vinyl on polycarbonate cover of 1mm width
- ⑤ Paper graphics with polycarbonate cover of 2mm width
- ⑥ Vinyl on polycarbonate cover of 2 mm width with reinforcement tape
- ⑧ Vinyl/print on Xbond board of 2mm width
- ⑨ Vinyl/print on aluminum board of 0.5mm width
- ⑩ Vinyl/print on aluminum board of 0.8mm width

For each sign in the catalog you'll find our recommendation regarding the appropriate graphic implementation. Please consult the Legend.

FLAT MODULAR SIGN SYSTEM

GreenSquare was founded in 2010 with a definitive mission to offer the international sign industry a leading Flat Modular Sign System that is both elegantly designed and technologically advanced.

GreenSquare offers a variety of flat signage solutions designed to match and complement any project. From standard frames to elegant design solutions, we offer it all, including the leading "GreenSquare Float" design which is our crown jewel.

The GreenSquare system is based on flat sign frames that accept a spectrum of inserts materials of different thicknesses due to our "Smart Insert" technology. Our products are extremely modular and can be tweaked and designed to match any need. Custom made solutions can be easily fabricated utilizing the flexibility of the system.

GreenSquare Company policy:

- We offer flat modular sign solutions, nothing else!
- We offer ever-improving customer service.
- Swift delivery times, based on our Global Shipping Network.
- We will match any price.
- We only sell to sign professionals.
- We offer 100% Satisfaction Guaranty.
- We strive for design leadership, as we continuously develop new and exciting products, utilizing state of the art technology and materials.
- **We don't say No, we just try harder!**

FLAT MODULAR SIGN SYSTEM

Frequently Asked Questions & Answers

Q: What types of flat signs are available in the GreenSquare system?

A: Wall signs (standard, floating, floating corner, directory), table Signs, suspended signs and flag signs.

Q: Is GreenSquare an indoor or outdoor sign system?

A: The system is mainly for indoor use, but supports a variety of outdoor solutions.

Q: What sizes are supported by GreenSquare?

A: The system supports a great variety of sizes leading up to 100cm X 100cm / 40".

Q: Does GreenSquare support using firm inserts?

A: Yes, the system supports firm inserts thanks to a special cover extrusion.

Q: Does GreenSquare support Braille components for the visually impaired?

A: Yes.

Q: In which colors is the system offered?

A: The aluminum parts of the system are available in 3 finishes, aluminum, black and gold.

Q: What insert width range does the GreenSquare system support?

A: The system supports insert widths of up to 3mm / 0.12", thanks to a special cover extrusion.

Q: Is GreenSquare a modular signage system?

A: Yes.

Q: What is the technological aspect of GreenSquare's floating effect (the signs appear as floating in front of the wall)?

A: The system features a special floating profile that is attached to the sign frame to create the floating effect.

Q: How do I update the system's inserts when an update is required?

A: There are two ways to update the inserts: First, if the insert is flexible you can simply apply a suction cup to pull it out. Second, in case the insert is not flexible, you simply disconnect one of the special cover extrusions mechanically fastened to the frame.

Q: Is it possible to order signs of non catalog sizes?

A: Yes, GreenSquare is a modular signage system that supports non catalog sizes.

Q: Is it possible to order signs of other than the standard colors?

A: Yes, custom finishes are optional.

FLAT MODULAR SIGN SYSTEM

The GreenSquare portrait wall frames (also available in an eye catching floating design) are a perfect choice for room identification signs, bathroom signs and general way-finding signs. The portrait position is determined by the position of the end caps on the bottom and top of the sign frame.

Suspended signs are mostly applied as hallway wayfinding signs and long lasting promotional signs (seeing as how updating them at such heights frequently is not very efficient). Suspended signs can be designed to meet your specific measurement requirements.

Flag Signs, who are also known as projecting signs, are very good at attracting the public's attention and are most commonly used to identify bathrooms, public areas, meeting areas, security information and a more recent trend is in airports as a lounge indicator.

Table signs are most often recognition and promotional signs as opposed to traditional way-finding signs. Such table or counter top signs will be used to introduce the person at the given work station (most often title and name), working hours, special information/instruction and many a times will include a built in brochure or business card holder.
